

Alterations Policy for our Customers

When you order a Custom Fit suit (not Standard Size suit) we will provide one alteration at no charge if the suit does not fit correctly. To get your alteration you must return the suit within the first 30 days after purchase along with our Alteration Form specifying your contact information as we may have questions. The customer will be responsible for shipping costs of returning the suit. We will alter your suit as quickly as we can and get it back to you and we will pay for the return shipping.

We do not alter a suit at no charge if you order a Standard Size and it does not fit. We have a price list for alterations and you can get a quote if you need an alteration to a Standard size you have received.

If you gain or lose weight or need an alteration after the first 30 days you can call our office and get a price for the requested alteration and decide if you want to have the alteration done. We will be happy to provide alteration services for a fee.
